

COVID-19 Operational Plan for the 2021-2022 Winter Season

Chicopee is committed to offering a safe and healthy winter season, even though things will look and feel different. We will continue to work closely with Public Health to ensure the well-being of our community, following COVID-19 regulations and implementing industry best practices.

There are many changes to the way we will be able to operate, and we will continue to adapt the plan as necessary to remain relevant and in compliance with provincial and regional recommendations. We are taking extra steps to promote health and safety.

The following document will outline our plan for this season. The document has been broken down by overall wellness and impacts in each department of resort operation. The term Guest will be used interchangeably with Members, Season Passholders, Card Holders, Lesson Participants, Day Ticket Holders, contractors, and visitors. We have provided a table of contents for ease of use. Should you have any questions when you are reviewing this document please contact us at guestservices@chicopee.ca

Our Team is comprised of over 500 employees and volunteers that have been through extensive training. Our training included our COVID-19 protocols so that all employees are well versed in the importance of protecting themselves and others. All our employees, volunteers and guests will be practicing the same wellness measures to keep everyone safe.

These are challenging times, and we thank you in advance for your patience as we navigate our new norm. We commit to keeping our website updated with updates and changes, as our operational plan is subject to change without notice, in accordance with guidelines provided by the Government and Public Health. We will continue to prioritize your safety and with everyone's cooperation we believe we can provide the same unique fun-filled experiences you have come to know and love!

Looking forward to a safe and enjoyable season!

Framework Changes

Chicopee COVID-19 Assurance

Scenario 1: Full Season Closure

Should Chicopee be told between December 1, 2021 and Opening Day that we are not be able to operate for the season, or if it is not feasible due to a Public Health ruling, we will move your purchase to the 2022-2023 season (no refunds).

Scenario 2: 14-Day Season Pause

Should Chicopee not be able to operate because of a Public Health closure due to COVID-19, up to and including 14 days, all Memberships, Season Passes, Cards, Programs and Camps will continue after shutdown with no credit. We will essentially pause the operation during this time.

Scenario 3: 14-Day Season Interruption

Should Chicopee not be able to operate because of a Public Health closure due to COVID-19, for more than 14 days, all Memberships, Season Passes, Cards, Programs and Camps will be prorated for the number of days closed beyond 14 days, and a credit issued to the original payee in the form of a Chicopee credit. These transactions would be completed by March 31, 2022.

Sample Calculation: Public Health closure for 20 days = Day 1 to 14 is paused (no credit); Day 15 to 20 (6 days) will be credited in the form of a credit on your Chicopee account.

We will only allow a maximum of one Scenario 2, where we would pause the business without any option for credit. Should we encounter Scenario 3 multiple times there would be a cumulative credit offered.

There will be no refunds! Credit will be issued to your Chicopee account, and be valid until March 1, 2023.

Our opening day and closing day are dependant upon weather and snow load. We have published a projected opening date of Saturday December 18, 2021 and projected closing date of Sunday March 20, 2022. Calculations will be based on actual opening and closing dates.

Operating Hours 2021-2022
